ADMINISTRATION REPORT OF THE RURAL DEVELOPMENT PROJECTS DEPARTMENT IN MADRAS STATE FOR THE YEAR 1957-58.

CHAPTER I.

ADMINISTRATION OF THE PROGRAMME.

(a) Main changes in administration.

Under the Community Development Scheme, the Block Development Officer occupies a very responsible position. He has to win the confidence of the public and also implement the instructions of the Government. To select the best-suited men for appointment as Block Development Officers, a Standing Committee consisting of the Chief Secretary, the Additional Development Commissioner and the Joint Development Commissioner has been constituted.

The main duty of the Block Development Officers is to strive for an all-round improvement of the villages by using local initiative and local resources to the utmost extent possible. He has general supervision over the work of the various nation building departments in the area under his jurisdiction. He must conduct a preliminary survey of all the villages selected for the National Extension Service. He is responsible for drawing up the integrated plan of work for his Block and its execution. He should be in close touch with the day-to-day work of the Gramasevak and technical staff and should supervise and guide their activities.

The Collectors are primarily responsible for the successful working of the various Blocks in the districts. They should, therefore, carefully follow up the progress in the formulation and the execution of the different schemes. The Collectors are also responsible to bring about effective co-ordination of the activities of the various departments in the Blocks.

There is one Assistant Development Commissioner (Training) who is in charge of the scheme for training personnel under the Community Development Scheme. The Chief Secretary, assisted by the Additional Development Commissioner and the Joint Development Commissioner, is the authority at the State level for implementing the Community Development Scheme. The Chief Minister is in charge of this portfolio.

District Social Education Officers.—Pending the decision on the question of appointing a District Social Education Officer in each district and how the set up of social education should be organized in relation to the Education Department, the Government created two posts of District Social Education Officers, one at Madurai and the other at Coimbatore. These District Social Education Officers will supervise the work of the Social Education

Organizers in the Community Development and National Extension Service Blocks in the districts and also attend to Social Education work in the non-development areas. They will also supervise the work of the Social Education Organizers in other districts, if so required. These District Social Education Officers will work in close collaboration with the District Education Officers.

Besides these two District Social Education Officers, there is also a District Social Education Officer (Training) who is under the control of the Assistant Development Commissioner (Training). The District Social Education Officer (Training) is in charge of the scheme for training of village school teachers for one month. The District Social Education Officer (Training) is a State Touring Officer.

(b) *Coverage.*

On 1st April 1957 there were 89 Community Development and National Extension Service Blocks functioning in the Madras State. Forty-four National Extension Service Blocks were started during the year under review. Seven National Extension Service Blocks were converted to function as Community Development Blocks during the period under report. In all, there were 40 Community Development, 81 National Extension Service and 14 Post Intensive Blocks on 31st March 1958. These 135 Blocks were 20,240 square miles in extent and covered 7,535 villages with a population of 118 lakhs. Details regarding area, villages and population covered by each of the 135 blocks are given in Annexure I.

(c) *Training Programme.*

The Government have established ten Rural Extension Training Centres in this State at the places indicated below for training the required number of Gramasevaks for employment under the Community Development Programme :—

Aduthurai	Tanjore district.
Pattukottai	
Kovilpatti	Tirunelveli district.
Krishnagiri	Salem district.
S. V. Nagaram	North Arcot district.
Bhavanisagar I	Coimbatore district.
Bhavanisagar II	
T. Kallupatti I	Madurai district.
T. Kallupatti II	
Gandhigram	

An integrated curriculum has been adopted at these centres and the period of training was for 1½ years. Except the Centre at Aduthurai, 120 candidates can be admitted for each course of training at the other centres and in the Centre at Aduthurai, only 60 candidates can be admitted due to limited accommodation facilities available there. Each trainee is paid a monthly stipend of Rs. 30 for the one year Basic training course and at the rate of Rs. 45 for the remaining six months, extension training. The trainees

are required to reside in the hostel attached to these Centres. On successful completion of the training the candidates are appointed as Gramasevaks, Grade II. A total number of 656 Gramasevaks have been trained by these institutions during the year 1957-58. A scheme for training the Gramasevaks in organizing village youth activities in and around the Rural Extension Training Centres and a scheme for organizing refresher courses for Gramasevaks both of which are sponsored by the Government of India, Ministry of Food and Agriculture, and included in the Second Plan are proposed to be implemented during 1959-60. Three dairy units are also proposed to be set up during 1959-60 to serve as model units at the Training Centres at Bhavanisagar, T. Kallupatti and S. V. Nagaram.

2. To the Rural Extension Training Centres at Bhavanisagar and T. Kallupatti, a Home Economics wing is also attached for training Gramasevikas in Home Science practices. Twenty trainees were admitted to each course of training. The course is for a period of twelve months. Each trainee is paid a stipend of Rs. 45 per mensem during the training period. The trainees reside in the hostel attached to the Training Centres while undergoing training. On completion of their training, they are posted as Gramasevikas in the Community Development Blocks.

Workshop Wing.—There is one Workshop Wing at the Rural Extension Training Centre, T. Kallupatti, which trains each year twenty artisans in the manufacture and repair of improved agricultural implements. Each course is of one year duration. After successful completion of the training each artisan is expected to go back to his own village and set up a workshop, so as to utilize profitably the experience gained. Financial assistance in the shape of loans are granted to the artisans which will be recovered in instalments. The artisans while undergoing training are paid a stipend of Rs. 45 each per mensem. They are also given residential accommodation while under training.

There is also a Model Centre for Village Industries at T. Kallupatti which was established in 1951. Artisans were trained in Village Industries such as Ghani oil pressing, paper making, soap making, bee-keeping, chakkies, etc. The training was for a period of ten months.

Orientation training of village school teachers.—In 1957, the Government sanctioned a scheme for the Orientation training of village school teachers with a view to enable the teachers to learn all facets of the Rural Development Programme, so as to enable them to function as Social Educators. Camps of one month duration are conducted by a peripatetic team consisting of a District Social Education Officer (Training) and a Social Education Organizer (Training) moving from place to place. During 1957-58, six camps were conducted and 381 teachers were trained.

Village Leaders' Training Camp.—A scheme for the conduct of Village Leaders' Training Camp is in operation in this State from October 1957. The objective of the scheme is to educate by the result and demonstration methods and bring about a change first in the outlook of the village leaders, secondly the outlook of village leaders' follower groups and finally the outlook of the village community. The Community Development Programme places the greatest emphasis on the role of local leaders in the development of rural communities. The village leaders in their turn educate their neighbours and become each in his own sphere a kind of voluntary local village worker. In other words, these village leaders are to set the pace for other agriculturists in their villages.

According to the scheme, ten camps will be conducted in each Block at the rate of one camp per Gramsevak circle. The duration of the camp is three days. About fifty village leaders who have a special interest in the subject are selected for each camp. The cost on account of running these camps is borne by the village leaders themselves and the host village. Government expenditure being restricted to Rs. 150 per camp. From October 1957 to September 1958, 1,207 camps were held and 59,577 village leaders have been trained.

CHAPTER II.

ACHIEVEMENTS UNDER THE PROGRAMME.

(a) *Agriculture.*

Distribution of improved seeds, fertilizers and improved implements continued to occupy the foremost place in the development of agriculture in the Community Development and National Extension Service areas during the year under review. 4·16 lakhs of maunds of improved seeds were distributed during the year as against 1·15 lakhs of maunds, in the previous year which represented an increase of 261 per cent. 10·32 lakhs of acres were under improved seeds during the year. The Tiruturaipundi block had distributed 24,032 maunds of improved seeds during the year, which performance exceeded the target by about eleven times. In Kadambathur block 17, 803 maunds of improved seeds were distributed as against 4,050 maunds targetted for the year. There has been a noticeable tendency on the part of ryots to take to the use of improved seeds not only of paddy but of other crops as well. A quantity of 180 lb. of improved ragi seeds was distributed in Minjur Block. Twenty-seven maunds of improved oil seeds were distributed in Chetpet block. Cultivation of cotton became popular in areas which had not grown cotton hitherto. It was introduced as a new crop in about 7 acres in Poonamallee Block. Out of 800 maunds of improved seeds distributed in Koilpatti Block, 700 maunds were cotton seeds. Three hundred and sixty-five maunds of improved cotton seeds were distributed in Sivakasi Block. One hundred and twenty-one maunds of Cambodia and Uganda seeds were distributed in Manur Block to cover 680 acres. Three thousand five hundred acres were under improved cotton seeds in Alangulam Block. The seed multiplication scheme was intensified during 1957–58. State seed farms were started in 89 of the blocks during the period.

Cultivation and use of green manure gained momentum during the year and 5·31 lakhs of acres were benefited by the use of green manure during the year under report. The Madurai Block had placed an indent for 5 tons of green manure seeds with the District Agricultural Officer during the year. Almost the entire area under paddy in Sirkali and Kadambathur Blocks had the benefit of green manure. During the year under report 27·27 lakh maunds of fertilizers were distributed which represented an increase of 64 per cent over the previous year's distribution. 9·71 lakhs of acres were under fertilizers during the year. Twenty-seven thousand eight hundred and ninety-one improved implements were distributed during the year as against 10,998 implements distributed in the previous year.

Improved methods of cultivation were widely practised in most of the blocks in the State. These blocks had reported additional yields of varying intensity as will be seen from the details that follow. Muthupet block had reported an additional yield of 14 per cent under food crops. The " Wave Method " of transplanting, experimented by a cultivator in Kivalur block, resulted in an yield of 4,357 lb. per acre as against the traditional average of 1,500 lb. per acre. About 237 fields spread over 41 villages were selected randomly from the same block and the average yield was observed to be 3,000 lb. per acre, the increase in yield arising out of improved agricultural practices.

Nearly 5 lakhs of acres were under the Japanese method of cultivation during the year in the Community Development/ National Extension Service areas of the State. Mention may be made of Mayuram block where 18,866 acres were under this method of cultivation. Pennagaram block had reported an additional production of 20 tons as a result of adopting Japanese method of cultivation. Japanese method of cultivation was extended to the cultivation of cotton and sugarcane also and this was responsible for growing cotton over an extent of 1,642 acres, and sugarcane over an extent of 206 acres in Dharapuram block. Compost prepared out of 64,813 compost pits were utilised during the year in increasing agricultural production.

Vegetable cultivation was popularised and as a result 20,439 acres were brought under vegetables during the year. Nine hundred acres were under vegetable cultivation in Alangulam block. Cultivation of Bellary onion was encouraged in Koilpatti Block. Three hundred and fifty acres were brought under chillies in Minjur Block. Sixteen thousand nine hundred and three acres were under fruit cultivation during the year.

In order to convince the rural folk of the superiority of improved strains of seeds chemical fertilizers, etc., 128,857 demonstrations were conducted in the Community Development and National Extension Service areas during the year. Plant protection operations were in full swing during the year. Power sprayers and hand operated sprayers were in demand by many of the blocks in the State and these implements were fully engaged in the adoption of prophylactic measures against various crop pests and diseases. Nearly 2,325 acres of crops (valued at Rs. 25,300) were saved in Manur block. Pest attacks in paddy fields were effectively controlled in Karungulam block. Seventeen thousand five hundred and sixty acres were protected in Kangayam Block. In Palladam block plant protection operations were responsible for saving 13,760 acres of food and other crops. Commercial crops like cotton and sugarcane were effectively protected against pests in Gobichettipalayam Block.

Agricultural competitions were arranged in Kivalur and Alangulam blocks. Three Block-level and 26 group level competitions

were held in Kivalur block. The highest yield recorded in Kivalur block was 4,982 lb. per acre.

Loans amounting to Rs. 16·41* lakhs were disbursed to the cultivators in 40 of the blocks for which particulars are available. A sum of Rs. 17,000 was advanced to the ryots in Dindigul block. Six oil engines and two electric motors were supplied to the agriculturists under hire-purchase scheme in this block.

Under the minor irrigation programmes restoration and improvements to existing irrigational sources were undertaken during the year. One hundred and fifty-five continuation works were in progress and 233 new works were undertaken during the year. It is estimated that a total area of 14,436 acres would be benefited by these works resulting in an additional yield of 7,476 tons of foodgrains. Fifty-seven of these works were completed during the year benefiting an extent of 1,517 acres to yield an additional production of 753 tons. Major repairs done to the 15,344 yards of Katcha channels and 460 wells in Tiruvadanai block area had made the block a surplus paddy area. The repairs were also responsible to get under cultivation nearly 50 per cent of the paddy area under second crop. A total expenditure of Rs. 5·97† lakhs was incurred for the 'continuation' and the 'new works' mentioned above.

(b) *Animal Husbandry.*

Considerable progress was made during the year in many of the blocks in the treatment of cattle diseases and control of epidemics. 10·53 lakhs of animals were inoculated and vaccinated and 6·40 lakhs were treated for various diseases. Research work in cattle and sheep diseases was taken up in four villages in Sriperumbudur block. In Ammapet block alone, 93,645 cattle were treated as against the target of 2,400 for the year. This achievement was nearly 40 times the target.

Appreciable progress was made in the provision of veterinary facilities. Sixty-three veterinary dispensaries and 84 veterinary first aid centres were functioning during the year under report. Particular mention may be made of the Agastheeswaram block, where four veterinary first aid centres were started during the year. Formation of Key Villages was in progress in Dindigul and Tiruppur blocks. Three artificial insemination centres were started during the year and the number of such centres rose to 27 on 31st March 1958. Efforts were taken to establish model cattle sheds in a number of villages in the Koilpatti block.

In order to upgrade existing cattle, 89 pedigree bulls were supplied under the Bull distribution scheme and 209 bulls were included in the premium scheme. Mention may be made of the

---

* Source : Director of Agriculture.
† Excluding Madurai district.

supply of 10 Kangayam bulls to the ryots in Palladam block. Including these bulls, in all, 1,198 improved animals were supplied during the year.

Poultry farming continued to receive encouragement during the year under report. Fifty-three poultry units were started during the year, of which eight were in Virudhunagar block. In order to improve indigenous birds 32,591 pedigree birds were supplied during the year. The new poultry farm started in Gobichettipalayam was able to supply 300 eggs per month. Twenty thousand nine hundred and thirty-six improved birds were supplied during the year as against 7,884 birds supplied in the previous year.

Attention was also paid to the cultivation of fodder crops and establishment of grazing lands for cattle. One lakh thirty-two thousand eight hundred and three acres were under fodder crops during the year. In this connection, special mention may be made of 3,200 guinea grass slips planted and 810 lb. of lucerne seeds supplied in Palladam block for raising fodder.

During the year under review, 726 animals were affected by contagious diseases. A heavy attack of entrotexima in sheep was reported in Seidunganallur (Karungulam block). Besides Pennagaram block reported an out-break of black quarter. Necessary veterinary aid was rendered in all the cases.

Fifty-six cattle-shows were conducted during the year, including the sheep show at Tirukalikundram. The staff of the Veterinary department attended to 24 cattle fairs and visited 7,527 villages. An expenditure of Rs. 3·83 lakhs was incurred from the funds of the Animal Husbandry department in the block areas.

(c) *Health and Rural Sanitation.*

Seventeen thousand fifty-five soakage pits, 208,749 yards of drains and 6,873 rural latrines were constructed during the year Three thousand thirty-five water seal slabs were sold to ryots to enable them to put up septic type of latrines.

The health staff paid 16,434 visits to the villages. During their visits, they surveyed 23,159 houses and visited 6,974 schools. Fifty-three thousand eight hundred and seventy-eight restaurants were also inspected. 1·34 lakhs of lectures were given on rural sanitation and 9·84 lakh persons attended these lectures. Besides, film shows and dramas on problems of hygiene and rural sanitation were conducted during the year.

Preventive measures were undertaken to check the spread of all communicable diseases. 8·09 lakh persons were inoculated against contagious diseases and 11·47 lakh persons were vaccinated of which 2·87 lakhs were primary vaccinations. Special mention may be made of the measures taken against the spread of influenza in Chidambaram block. The villages affected were visited by the

health staff travelling in mobile vans containing necessary equipments and medicines for the use of patients. Leprosy survey was conducted in some villages of Titagudi block in South Arcot district. Three thousand six hundred and fifty-six maternity centres were functioning in the Community Development and National Extension Service Blocks during the year. Nineteen thousand seven hundred and two mother classes were held and 60,241 labour cases were conducted during the year under report. The maternity assistants attended to 2·22 lakhs of pre-natal and 91,228 post-natal cases.

Rural water-supply.—One thousand eight hundred and ninety-seven new wells are sunk and 2,574 wells were renovated during the year under report.

(d) *Medical.*

During the year under review, the Medical department had extended its facilities for the treatment of rural folk. Thirty-four hospitals were functioning in the Community Development and National Extension Service areas. Fifty-nine leprosy clinics were run by Government and non-Government agencies, and 76,414 lepers were given medical help during the year. A leprosy clinic was started during the year in Elathur of Kalasapakkam block. In addition to 182 dispensaries (rural and others) and 44 Public Health Centres existing. 15 primary Health Centres and three rural dispensaries were newly opened.

Four maternity and child-welfare centres were opened during the year and a total of 188 such centres were functioning in the Community Development and National Extension Service areas on 31st March 1958. Further additions and improvements were carried out to 17 existing hospitals and dispensaries. Mention may be made of the Cheranmahadevi block where additions and improvements to nine hospitals and dispensaries were carried out during the year. About 31 lakhs of patients were admitted in the different hospitals and dispensaries in the Community Development areas which works out to an average of 362 patients per day. Twelve thousand eight hundred and nineteen tubercular patients were given treatment and about 59,965 major and minor operations were performed during the year. The total value of medicines and medical equipments supplied during the year worked out to Rs. 6·63 lakhs.

In order to contact rural folk living in remote areas, mobile vans were attached to many medical institutions. One thousand and eighty-nine mobile dispensaries were functioning during the year to contact far away patients. The Padapai Medical Relief wing of the Madras Medical College visited Sriperumbudur and Tiruvallur blocks every Sunday and treated patients. Out of 7,535 villages in the Community Development areas only 489 villages are lying outside the radius of five miles from an existing dispensary.

(e) *Communications.*

One mile of National Highways, 4 miles and one furlong of State Highways, 2 miles and 3 furlongs of major district roads, 24 miles and 6 furlongs of other district roads, and 132 miles and 7 furlongs of village roads were newly constructed by the Highways department during the year. Besides 132 miles and 3 furlongs of National Highways, 133 miles and 7 furlongs of State Highways, 710 miles and 2 furlongs of major district roads and 628 miles and 5 furlongs of village roads were improved during the year. Ninety-seven miles and 4 furlongs of major district roads were black-topped during the year. A sum of Rs. 68·6 lakhs was spent by the Highways Department on the works mentioned above.

During the year, 607 miles and 5 furlongs of katcha roads were formed and 701 miles and 3 furlongs of existing roads were improved.

Under local development works, construction of buildings for 10 schools, one hospital, and 54 community centres, 81 latrines, 94 culverts, 12,273 yards of drains and 65 works of minor importance were in progress during the year. A sum of Rs. 2·77 lakhs was spent on these schemes. Besides, additions and repairs were carried out to four latrines and two culverts at a cost of Rs. 16,933.

(f) *Irrigation.*

Intensive measures were taken during the year under review to improve the irrigational facilities in the Community Development and National Extension Service areas. The Rajan Channel of Harichandranadhi was extended to give irrigational facilities to 400 acres of lands and the additional yield due to this was estimated at 200 tons of rice. An extent of 717 acres of manavari lands in Aymur in Tiruthuraipoondi block was brought within the supply of irrigable water by the construction of a regulator at a cost of Rs. 1·06 lakhs and this was expected to yield an additional production of 385 tons of rice. An extent of 584 acres of manavari lands lying on the margin of the Manarkundanur drain in Vedaranyam block received water-supply as a result of the improvements carried out to the drain and this was expected to result in an additional production of 112 tons of rice. Drainage facilities to submergible land of 230 acres in extent, were given in Gopalasamudram village (Muthupet).

Two dams across Maharajasamudram river and Nasuyiniar were constructed and improvements were being carried out to three others during the year. Restoration of breached Marasamudram anicut in Krishnagiri block was completed at an estimated cost of Rs. 1·6 lakhs and water was let out for irrigation during the year under review. In all 7,500 acres were benefited by this scheme.

Forty-seven tanks were repaired during the year. Special repairs were carried out to Wallajah tank bunds at an estimated cost of Rs. 10,500. Protective bunds were formed across Coleroon Padugai land at a cost of Rs. 20,000.

Construction and repairs to regulators where necessary, was undertaken during the year and in this connection, mention may be made of the construction of the Thoppanavalli regulator across Pamniar at an estimated cost of Rs. 1·21 lakhs.

Various other items of work including silt clearance were under taken in 87 tanks and canals. Silt clearance and repairs to Vansingh drains from Vansingh culvert to the junction of Manjalar was completed at a cost of Rs. 13,762. The total expenditure incurred during the year on the different schemes amounted to Rs. 5·6 lakhs.

(g) Buildings.

During the year under review, construction of staff-quarters, office buildings, medical and educational institutions, and repairs and improvements to various other buildings were in progress Twenty school buildings were under construction at an estimated cost of Rs. 2·22 lakhs and the expenditure incurred during the year was Rs. 1·58 lakhs. Buildings for six medical institutions were under construction during the year. The hospital with 100 beds constructed in Erode at an estimated cost of Rs. 10·5 lakhs deserve special mention.

Housing schemes for providing quarters to Block Development Officers, Extension Officers and Police staff at an estimated cost of Rs. 109·5 lakhs were in progress. Besides repairs and improvements were done to 20 schools and 18 hospitals. An overhead tank was constructed in Agastheeswaram block and it was provided with electric pumps and distribution tubes.

(h) Housing.

During the year under review, 21,072 katcha and 5,217 pucca houses were newly constructed. Housing co-operative societies were organized in Kalasapakkam and Vadipatti blocks. Mention may be made of Agastheeswaram block, where 39 members were given Rs. 750 each for the construction of houses. A land colonization scheme was started in Nainarpalayam of Chinnasalem block.

(i) Electricity.

One hundred and sixteen schemes were completed during the year at a cost of Rs. 18·05 lakhs. Further, 184 schemes were in progress and an expenditure of Rs. 55·45 lakhs was incurred. Two hundred and forty-three villages were newly electrified. Six thousand four hundred and forty houses, 5,363 Agricultural and 123

Industrial Units were benefited by the extension supply of electricity. One thousand three hundred and ninety-five street light connections were also given during the year under report.

(j) Broadcasting.

One hundred and forty-two radio receivers were installed in the Community Development and National Extension Service areas during the year under review as against 83 in the previous year representing an increase of 61·4 per cent.

(k) Education and Social Education.

Four hundred and nine new elementary schools were started during the year under review and the average attendance per school was 138. Ninety-five elementary schools in the Community Development and National Extension Service areas were converted into basic type to make the school children craft minded. The villagers evinced keen interest in educational programmes. The people of Tirupalaivanam village in Minjur block constructed a school building entirely out of their own funds. A cattle-shed at Cuddalore was donated by its owner for conducting a school. Including 172 adult literacy centres started during the year. There were in all 2,290 adult literacy centres, functioning during the year and 66,129 adults were trained, in these centres. One thousand five hundred and eighty-one recreation centres were started and 8,989 community entertainments were organised during the year. Mention may be made of the special drama on the Second Five-Year Plan staged in Kattur of Minjur block which was attended by over 4,000 persons. Days of National importance were observed in all the blocks. Ten thousand and eighty village leaders were trained in 257 village leaders' camps organized during the year under review. Five hundred villagers were enlisted for Lok Sahayak Sena camp in Sriperumbudur block.

(l) Fisheries.

Towards implementing programmes for furthering, Pisciculture in the Community Development and National Extension Service areas of the State, 32 irrigation tanks were surveyed during the year. 19·25 crores of fish seeds and 24·24 crores of fingerlings were supplied to the various parties. As a first step towards development of fisheries in Vaigai Reservoir in Andipatti block, 25,000 fingerlings were stocked. Besides scientific fish culture was demonstrated in Tirupparankundram, Vadipatti, Melur and Kallupatti blocks. The fishery in Vadakarai tank was sold in public auction for Rs. 8,400. Three thousand three hundred and thirteen pounds of fish were caught from the demonstration ponds in Valliyoor block.

Fishermen co-operative societies were granted long and short term loans. In Ramanathapuram district three of the societies were granted a sum of Rs. 12,000 as long-term loan to enable the members to clear off prior debts. Long-term loans of Rs. 10,000

each were sanctioned to two fishermen co-operative societies at Rajjakkamangalam of Kanyakumari district. In Tuticorin division, a sum of Rs. 12,000 was disbursed as long-term loan to the fishermen.

In the Thoothoor fish curing yards in Cape Comorin, 1,526 tons of fish were cured by the subsidised salt issued by the department. * Also "Fabulo" boats were given on loan to the fishermen in Minjur block for deep-sea fishing.

(m) *Transport.*

Attention was paid to step up transport facilities in the Community Development and National Extension Service areas. New routes were opened where necessary and additional buses were sanctioned on the existing routes. Thirty-three new permits were granted and 12 routes were varied in Madurai and Ramanathapuram districts to benefit a number of villages. Ninety-six additional buses were sanctioned and the frequency of bus service was increased during the year under review. As a result of these, at the end of the year, 3,165 buses served the villages situated in Community Development areas and the frequency of the service stood at 11,053. Forty-seven new bus-stands were provided in the block areas. Three hundred and sixty-one public carrier permits, 97 private carrier permits and 39 contract carriage permits were granted or renewed during the year.

(n) *Co-operation.*

In addition to the existing societies, 124 credit and 91 non-credit societies were started during the year. Formation of new societies and enlarging the area of operations of existing societies were responsible for a fresh enrolment of 76,248 members. Seventy-four dormant societies were revived and 211 credit societies were converted into multi-purpose type during the year. The credit societies in the Community Development and National Extension Service areas with a paid-up share capital of Rs. 21·19 lakhs covered a membership of 1·17 lakh persons. A sum of Rs. 1·73 crores was disbursed as loans to the members of these credit societies. The controlled credit system was introduced in Tirumanur and Dindigul blocks.

During the year 201 societies, undertook the distribution of improved seeds chemical fertilizers, improved implements, etc., and nearly 1·28 lakh of members were benefited by it. In addition, 22 societies that were engaged in marketing agricultural produce did business to the tune of 18·16 lakhs. Of the 253 industrial societies functioning 120 were weavers' co-operative societies. Handloom cloth valued at 76·69 lakhs were produced by the society and the total sales amounted Rs. 77·37 lakhs. An agricultural bank was started at Sathiamangalam in Manur block to benefit 8 villages. This Bank was organized afresh and was not formed by the amalgamation of existing societies.

Eighty-seven store societies were functioning in the Community Development and National Extension Service areas and their total transactions during the year amounted to Rs. 48·43 lakhs. Fifteen women were members of the cottage industrial society started for women at Anaikaranchatram and articles worth Rs. 1·01 lakh were turned out by this society. Another such society for women was organized in Arni Block.

Joint farming co-operative societies were organized in Kilapalur of Tirumanur, Randomkoratham of Arni, Melakalur of Manur and Alagappapuram of Agastheeswaram blocks. Organization of three tenant farming societies at Tirupanandal and a tomato farming society at Tiruvannamalai deserves special mention. The formation of a joint farming co-operative society was under consideration for the two gramadhan villages in Tirumangalam block. Steps were taken to organize joint farming societies in 16 other blocks. The joint farming society in Gobichettipalayam block, was functioning satisfactorily and 311 acres of lands were under cultivation.

Health co-operative societies were functioning at Mohanur in Rajapalayam and Gangavalli blocks. A handpounding co-operative society at Vedaranyam block produced 2,689 bags of rice valued at Rs. 98,040. The milk societies at Vallianai, Alangudi, Kulitalai and Palni blocks produced milk worth Rs. 67,027. The artificial diamond cutters societies at Kodumudi was functioning satisfactorily during the year under review. Another special type of society organized was the co-operative laundry at Vannarpet in Manur block. Three lift irrigation societies were formed in Chidambaram block.

One coir industrial society was functioning in K.V. Kuppam for the benefit of Harijans at Pillandipatti. A brick-maker's society at Chidambaram was started to benefit the Harijans.

In order to promote thrift, 72 co-operative societies distributed 722 hundi boxes and a sum of Rs. 95,420 was collected as savings. In Melur block the savings effected through co-operatives by means of hundi box and other thrift schemes amounted to Rs. 33,629. Two co-operative societies in Anaikaranchatram and three societies in Valliyoor purchased newspaper for the use of their members and two of the weavers societies in Lalgudi purchased radio sets for the benefit of their members.

The co-operative societies participated in local development works also. The multi-purpose society at Chetpet and Madurandakam blocks undertook the construction of godowns for the agricultural bank. One co-operative society at Srivilliputtur block undertook the construction of a school building.

(o) Harijan Welfare.

Housing schemes for Harijans which were in operation during the year under review in three Harijan colonies; two in Uthiramerur and one in Kurinjipadi were completed. In six blocks houses were

under construction for the benefit of Harijans. In Minjur Block, foundation had been laid for a Harijan Colony in Ramareddipalayam. An extensive housing scheme for Harijans was in operation in Ramanaickenpalayam village of Peddanaickenpalayam block.

Buildings for four Harijan Welfare schools at Kurinjipadi and three schools at Kalasapakkam were under construction during the year under review. A Harijan school in Mallal of Kalayarkoil was under construction at an estimated cost of Rs. 6,905. All the Harijan welfare schools in Manur block received supplies of milk powder.

New wells were constructed and old wells were renovated in the Harijan localities in the diffferent blocks. Eighty-two wells for Harijans in Palladam block were disinfected.

In order to provide employment to the Harijans charkas were distributed free of cost. The Coir Society at Pillandipatti and Brick Makers Society at Chidambaram were exclusively for the benefit of Harijans.

(p) *Women's Welfare.*

During the year under review, 11 women's welfare organizations were functioning in the Community Development and National Extension Service Blocks. In order to promote family welfare, the staff of the organization regularly visited houses and during the year 6,918 families were given free medical aid and 106 persons were hospitalized. One hundred and fourteen unemployed persons were assisted in securing jobs and 52 children admitted into schools. Further seven helpless children were admitted into orphanages in Gangavalli block.

Twenty-two Community Service centres were functioning in the Community Development areas. Promotion of adult literacy, cottage industries were the important activities undertaken by these centres. Two hundred and sixty-three adults and 407 children were attending the respective classes. Centre meetings were held at hours suitable for village folk. Two hundred and seventy-four meetings were held with an average attendance of 49. In addition 3,168 persons visited the centre for help outside centre timings. Basket weaving, making of fishing nets, poultry farming and leaf plate making were some of the subsidiary industries promoted by the Community Centres of the Women's Welfare Organization. About 227 participated in these industries and earned wages amounting to Rs. 1,157. Spinning was taught to members. One hundred and ninety persons participated in spinning and turned out 5,671 hanks worth Rs. 2,984. Spinning competitions were held in the various centres and prizes were distributed to those who come out successful. The branch in Sriperumbudur Block took part in the exhibition held at Tambaram and prepared 150 badges free of cost for supply to the village leaders camp.

During centre times, practical demonstrations for cooking were conducted. One hundred and fifty-seven such demonstrations were conducted in Tiruchirappalli, Madurai and Coimbatore districts.

The Maternity Assistants accompanied the Women's Welfare Organizers during their house visits in the surrounding villages to render help to those who needed it. During the year under review, they conducted 489 anti-natal, 227 post-natal and 88 delivery cases.

(q) *Khadi.*

The Madras Government took up khadi development as an integral part of its rural welfare scheme, eleven years ago, when they took over a few Khadi Centres from the All-India Spinners' Association and named it the Intensive Khadi Scheme.

The Extension Khadi Scheme which was introduced in 19 firkas during 1949–50 and was extended to 36 more firkas in 1950–51 is really intended to introduce spinning in the areas where spinning has not taken root already. In 1949–50 and 1950–51 the services of the Rural Welfare Officers and the Gramasevaks employed in the Rural Welfare Scheme, were availed of to implement the scheme. With the partition of the Andhra State in 1953, the scheme was in force in 33 selected firkas and parts of firkas administered by 13 Rural Welfare Officers assisted by Khadi workers and Gramasevaks in the Madras State. Consequent on the merger of the Rural Welfare Scheme in the National Extension Service in 1953, the working of the scheme has been entrusted to the Block Development Officers in charge of National Extension Service Blocks with the respective firkas. The scheme is now in force in all the National Extension Service Blocks.

Comprehensive Khadi Scheme.—As in the National Extension Scheme, so also in the Community Development Programme, Khadi has been given a very important place in this State. Since the Community Development Programme is based on the principle of increased production and increased employment, the Khadi industry has been considered the one easy and simple industry has been which can be introduced on a very large scale in the villages provide an effective answer to mass unemployment and under-employment at a very low cost. The Comprehensive Khadi Scheme was introduced in the Community Project areas and the Community Development Blocks as a measure of meeting the unemployment and under-employment in the villages. The scheme is now in force in all the Community Development Blocks.

The work in the National Extension Service Blocks under the name of Extension Khadi Scheme and in the Community Development Blocks under the name of the Comprehensive Khadi Scheme

is identical. The actual work in the block areas in the administration of Khadi Schemes can be divided into four main stages, i.e.,—

(1) Supply of charkas and cotton to spinners.

(2) Training of spinners.

(3) Purchase of yarn from spinners.

(4) Sale of Khadi.

(1) *Supply of charkas and cotton.*—The Block Development Officers will introduce charkas at the rate of 500 per block in a year. As an inducement to the spinners to buy charkas and use them to take to handspinning, the Government of India through the Khadi and Village Industries Commission, give a subsidy of Rs. 2-8-0 of 50 per cent of the cost of the charkas whichever is less, per charkha distributed to the spinners. To further facilitate the poor villagers the value of charkas is to be recovered from them is collected in six instalments.

Cotton is supplied to the spinners by the Block Development Officers at cost price. In order to facilitate the spinners to learn spinning without any loss an initial free supply of cotton is made to the new spinners at a cost not exceeding Re. 1 in value per spinner towards wastage at the beginning stages.

(2) *Training of spinners.*—Spinning in traditional charkha does not require much training. A few hours training will do. The Spinning Organisers, when they visited villages impart training to spinners.

(3) *Purchase of yarn from spinners.*—The Gramasevaks purchase yarn from the spinners and deliver them to the Block Development Officers concerned. The Block Development Officers would pool the yarn collected from the Gramasevaks and pass them on to the Khadi Department's Production Units.

(4) *Sale of Khadi.*—Each Block Development Officer is supplied with Khadi to the maximum value of Rs. 3,000 on credit basis for sale to the villagers. The Gramasevaks and other subordinates will canvass orders from the villagers in their jurisdiction and such orders will be met with from the stocks with the Block Development Officers.

The achievements of the Khadi Schemes in the Blocks are given below.—In National Extension Service Blocks, during the period under review, 7,105 charkas were introduced, 2,27,776 hanks purchased and about Rs. 18,981 were distributed as wages to spinners; Khadi worth Rs. 50,933·07 sold.

In the Community Development Blocks, 9,860 charkhas were introduced; 1,082,011 hanks purchased and about Rs. 90,167 were distributed as wages and Khadi worth Rs. 92,065·36 sold.

In the Reverted National Extension Service Blocks, 2,255 charkas were introduced, 332,752 hanks purchased and about Rs. 27,729 distributed as wages to spinners. Khadi worth Rs. 21,751·93 was sold.

The total expenditure incurred under pay and allowances of establishment (i.e., in respect of Khadi Extension Officer and three spinning organisers per block) cost of charkas and cotton and miscellaneous contingencies in the National Extension Service Blocks and Reverted National Extension Service Blocks during the year under report amounted to Rs. 2,49,305 in the National Extension Service Blocks and Rs.74,832 in the Reverted National Extension Service Blocks. The expenditure on the cost of charkas and cotton which form the major portion of the expenditure under the scheme is fully recoverable by way of sale proceed of the charkas and subsidy thereon from the Khadi and Village Industries Commission and sale proceeds of cotton.

(r) *Village Industries.*

The following are the village industries that have been taken in for development with the financial assistance granted by the Khadi and Village Industrial Commission:—

1. Village oil industry.
2. Handpounding of paddy industry.
3. Village tanning and allied industries.
4. Village pottery including brick manufacture.
5. Bee-keeping.
6. Soapmaking, from non-edible oils.
7. Handmade paper.
8. Production of gur and khandasari sugar.
9. Cottage type match factories.
10. Development of ginning cotton.
11. Palm gur industry.
12. Ambar charkas.

A note indicating the programme of development in respect of each of the above industries are furnished below:—

1. *Village oil industry.*—Forty Wardha Ghani Demonstration Centres were started by the Department during 1956–57 and 1957–58. Twenty-five centres with the financial assitance of the Khadi and Village Industries Commission. Six centres at the instance of the Indian Central Oil Seeds Committee and nine centres from the State Budget. The object of the scheme was to demonstrate to the local oil the advantages of the Wardha Ghani and to conduct short courses of training for the village oil men in the working of the improved type of Ghani. Each of

the demonstration centres started with the financial assistance of the Khadi and Village Industries Commission and from the State Budget also provided a grant of Rs. 100 to such of the oil pressers who were willing to get their ghanis converted into Wardha type.

Twenty-three Wardha Ghani Demonstration Centres that were started during 1956-57 have been closed with effect from 1st March 1958. Since 25 oil-pressers and conversion of 25 old ghanis into Wardha ghanis. It is proposed to convert these centres into industrial co-operatives or to transfer them to the existing co-operative societies. So far five centres have been handed over to the co-operative societies.

A total number of 486 oil pressers were trained in the above centres during 1957-58 and 133 old ghanis were converted into Wardha type. The 6 centres started with the financial assistance of the Indian Central Oil Seeds Committee were also wound up after their working for a period of one year. Two out of these six centres were transferred to co-operative societies.

Production of oil and cake in the existing departmental units for the year ended 31st March 1959 to Rs. 65,000 and the sales of Rs. 63,000.

Seventy-five oil producers' co-operative societies were registered up to the year ended 31st March 1959. Production of oil and cake in these societies amounted to Rs. 32,88,000 and sales to Rs. 32,96,000.

To meet the demands for Wardha Ghanis one State workshop and one ghani manufacturing centre have been started at Vengalapuram in North Arcot district and at Makkakombai in the Lower Bhavani Pilot Project area respectively. The State workshop has so far manufactured 15 Wardha Ghanis and the Ghani manufacturing centre. 35 Ghanis wooden components for the assembly of 30 more ghanis are under progress.

2. *Handpounding of paddy industry.*—The Departmental Production Centre for Handpounded rice started during the year was converted into an industrial co-operative. 400 chakkies and 20 winnowing fans have been distributed at 50 per cent cost to the selected families, and to the Industrial Co-operatives in the Lower Bhavani Pilot Project Area and in Tirunelveli District to encourage the production of Handpounded rice.

Seventy-five handpounding co-operative societies have been started with a membership of 3,893 and a paid-up share capital of Rs. 1,37,754.

Working capital loan of Rs. 5,63,500 has so far been sanctioned to these societies. Production of Handpounded rice in these societies amounted to Rs. 10,75,839 and sales to Rs. 11,53,500.

A sum of Rs. 68,000 has been sanctioned as production subsidy.

3. *Village tanning and allied industries,*—The Five Village Model Tanneries started during 1957–58 continued to function with better results. The number of demonstrations held by these tanneries rose up to 120 and about 900 village tanners are reported to have been benefited by the demonstrations. Incidential production of tanned hides and skin in these tanneries amounted to Rs. 12,000.

Out of 30 Flaying Centres sanctioned for the Community Development and National Extension Service Blocks, 28 centres have commenced work. The remaining 2 centres will commence work before 30th June 1959. Production of raw hides and skins meats tallow and steamed bonemeal in the centres that have commenced work amounted to Rs. 6,500.

Out of 1,000 improved sets of flaying tools sanctioned for distribution in the Block areas at half cost, 420 sets have been distributed.

The three leather marketing depots sanctioned by the Government in April 1953 in proposed to be transferred to State Marketing Co-operative Society which is to be registered shortly.

A sum of Rs. 36,500 has been sanctioned as subsidy to the individual tanners through the Village Industries Officers and the Block Development Officers for the construction of new tanning pits and for repairs to old pits.

There are nine leather tanners, co-operative societies with a membership of 133 and a paid-up share capital of Rs. 3,548. Production of tanned hides and skins in these societies amounted to Rs. 2,61,426 and sales to Rs. 2,96,949.

4. *Village pottery including brick manufacture.*—The three production centres, three training *cum*-service centre and the Brick Unit started departmentally during 1957–58 continued to function with better results.

Production of pottery wares in the three production centres amounted to Rs. 7,000 and sales to Rs. 4,500

Two of the training-*cum*-service centres have already commenced work and six candidates in the Training Centre, Tiruvallur

and four candidates in the Training Centre at Usilampatti are undergoing training. The centre at Panruti is expected to commence work before 1st June 1959.

The Brick-making Unit at Thenikottagam commenced production with effect from 7th July 1958. The centre has produced the following quantities of bricks valued at Rs. 14,700 till 31st March 1959.

1 Bricks 3″	322,000
2 Bricks 2½″	227,000
3 Bricks 2″	10,350
4 Tiles	12,000

There are 43 Potters' Co-operative Societies including the Societies for Brick and Tile with a membership of 1,980. Production in these societies amounted to Rs. 1,75,000 and sales to Rs. 2,07,698.

5. *Bee-keeping.*—Scheme for the development of bee-keeping industry in the following Community Development Blocks have been sanctioned.

Vedaranyam.
Usilampatti.
Tiruvallur.
Alanganallur.
Kadambathur.
Anaikaranchatram.
Sirkali.
Kolathur.
Peddanaickenpalayam.
Kangayam.
Gangavalli.
Sankarankoil.
Ootacamund.

The programme of development under the above scheme envisaged the distribution of 300 hives in each of the Blocks at 50 per cent cost to the selected families, the colonization and upkeep of the hives being attended to by the Departmental Bee Fieldman stationed in each of the above blocks. So far, 2,700 hives have been distributed and 100 hives have been colonized.

The area office at Yercaud with sub-stations has commenced regular work. Colonization of hives is in progress.

Government have sanctioned the starting of three bee nurseries out of State funds. These nurseries will be located at Pattur Aikadu in North Arcot district, Masinnagudi-Maravakanidem in Nilgiris district and Roganakal in Salem district. Pending construction of building, the Chief Engineer (Electricity) and the Chief Conservator of Forests were requested to accord permission to use the existing building belonging to their departments in the places selected and they have given their consent. Orders for equipment are being placed and the Nurseries will begin to function soon.

Apart from the above programme, the Khadi and Village Industries Commission has sanctioned financial assistance for the distribution of 9,000 beehives at subsidized cost in the Block areas. Out of 9,000 hives sanctioned, 4,250 hives were already supplied to the several blocks for distribution.

There are nine Bee-keepers' Co-operative Societies in the State and working capital loan to the extent of Rs. 18,000 has been sanctioned. Production of honey in these societies amounted to Rs. 6,250 for the year ended 31st March 1959.

6. *Soap-making from non-edible oils.*—The 16 departmental Soapmaking units with non-edible oils which commenced production during 1957–58 continued to function with better results. Production in these centres amounted to 81,372 lb. valued at Rs. 54,520 and sales to 50,340 lb. costing Rs. 33,728. The units continued to supply the requirements of medical institutions.

7. *Hand-made paper industry.*—Regular production in the Unit at Gandhigram commenced on 22nd June 1957. Up to the period ended 31st March 1959, a total quantity of 685 reams valued at Rs. 19,180 was manufactured and 454 reams, valued at Rs. 11,700 have been sold. Proposal to increase the production capacity of this unit and for incurring additional expenditure has been submitted to the Government. The Khadi and Village Industries Commission has also sanctioned a grant of Rs. 15,000 and a loan of Rs. 15,000 towards construction of additional buildings.

The Controller of Stationery and Printing has placed orders for the supply of 270 reams of paper and 25,000 flat files.

The building for the Unit at Shenbagaputhur in the Lower Bhavani Pilot Project area has been completed and electric installations are being carried on. All the equipments have been received and regular production will be commenced as soon as power-supply is received. The Cardboard Unit attached to this centre has started production and has manufactured 8,000 flat files for supply to the Controller of Stationery and Printing.

The machineries for the new unit recently sanctioned by the Government and proposed to be located at Arapakkam have been ordered and certain items have already been received. Site for locating the centre has also been selected. All possible steps are being taken to start the centre as early as possible.

8. *Production of gur and khandasari sugar.*—The scheme for the development of gur and khandasari sugar includes survey of the working of cane-crushers, improving their efficiency, improving the furnace and plants seed and introduction of proper clarificants. The scheme is in operation in five districts, viz., Namakkal taluk (Salem district), Perambalur (Tiruchirappalli district), Tirupathur (North Arcot district), Pilot Project area in Coimbatore district and

Kallakurichi (South Arcot district). The Inspectors and the Gur Demonstrators attached to these centres periodically inspect the crushers, furnace, etc., and advise the villagers in regard to the improved methods of manufacture.

The following are the progress achieved by these centres :—

	NOS.
I. (a) Number of bullock-driven crusher distributed on 100 per cent loan	95
(b) Number of fans distributed on 50 per cent grant and 50 per cent loan	35
(c) Number of crates on full grant	41
(d) Number of power crushers on 100 per cent loan	2
(e) Number of hand operated Centrifuges on 50 per cent loan and 50 per cent grant	1
1 Number of villages visited by the demonstrators	5,988
2 Number of manufacturers contacted	32,562
3 Number of crushers inspected	2,222
4 Number of furnaces improved	427
5 Number of furnaces constructed	267
6 Number of demonstrations held	984
7 (a) Production of jaggery during demonstration ..	73,351 (IMPERIAL MAUNDS.)
(b) Production of Khandasari	1,112

9. *Cottage type match factories.*—The Khadi and Village Industries Commission gave financial assistance for the establishment of 25 'D' Class Match Factories. The use of bamboo splints and veneers for the production of matches is a new venture. Five of the 25 units have been located in the Lower Bhavani Pilot Project and 10 units in respect of the blocks of Valliyoor (Tirunelveli district) and Rajapalayam (Ramanathapuram district).

Due to difficulties in getting licences for the storage of chemical appliances for the manufacture of bamboo splints and veneers only two units out of the five sanctioned for the Lower Bhavani Pilot Project have been started. Production of baby size matches in these units amounted to 32 gross valued at Rs. 650.

According to Central Excise Rules-grant of licences for running more than one factory in the same district has been refused by the Central Excise Department. The Khadi and Village Industries Commission insists that the centres should be located in contiguos places so that the overall cost of supervision might be kept within the minimum. The matter was therefore taken up with

The Blacksmithy Units in Agastheeswaram, Peddanaikenpalayam, Tiruthuraipoondi, Perambalur, Musiri, Kalasapakkam, Rajapalayam, Sirkali and Palladam have already commenced working. Carpentry units in all the Blocks except Kurinjipadi and Arcot have also started work.

General.—The Khadi and Village Industries Commission granted financial assistance for the establishment of 18 Gramodyog Sales depots, 5 'A' type depots, 5 'B' types depots and 8 'C' type depots. Government have sanctioned starting of these depots in the following places :—

Place.	Number of depots.	Type.
Madras	3	A
Madurai	1	A
Tirunelveli	1	A
Salem	1	B
Tiruchirappalli	1	B
Ootacamund	1	B
Coimbatore	1	B
Nagercoil	1	B
Chidambaram	1	C
Erode	1	C
Kumbakonam	1	C
Pudukkottai	1	C
Dindigul	1	C
Vellore (North Arcot)	1	C
Srivilliputhur	1	C
Tenkasi	1	C

All the above depots will be started before 30th June 1959.

(s) People's contribution.

During the year a sum of Rs. 78·84 lakhs was realised as people's contribution, Rs. 42·49 lakhs as cash and Rs. 36·35 lakhs in the shape of labour.

CHAPTER III.

THE IMPACT OF THE MOVEMENT ON ECONOMIC AND SOCIAL LIFE OF THE PEOPLE.

Six years have passed since the Community Development Programme was implemented. The result of the intensive endeavour is reflected in the social and the economic life of the rural population. The fundamental principle of the Community Development Programme, namely, " extension ", has contributed to a considerable extent to bringing about resuscitation of village life. The progress of science had prior to inauguration of the Community Development Programme not permeated the rural areas, and the benefits of sicentific and technological advance were denied to the rural folk. The principle of " extension " in every field of activity has brought about remarkable advance not only from the physical point of view but also from the psychological point of view. The two cardinal principles of " extension services " and " people's participation " the basic concepts underlying Community Development Programmes have ushered in a great awakening in the rural folk of the immense possibilities for improvement in almost every field of activity by the adoption of scientific methods. The extent to which these twin factors have transformed the social and economic life in the rural areas is reflected in the fields of Agriculture, Animal Husbandry, Education, Health and Sanitation and Cottage Industries. The total outlay under the different items of development comprised in the Community Development Programme in this State since 1952 is the order of Rs. 6·81 crores. The extent of people's contribution is of the order of Rs. 2 crores.

Increased use of fertilizers and improved seeds has been a significant phase in the development of agriculture. Fertilizers distributed during the period is 78·06 lakhs of maunds, while improved seeds of the order of 6·68 lakhs maunds were supplied. The application of fertilizers and improved seeds has brought about an increase in agricultural production in the areas under the Community Development Programme. There has been perceptible awareness among the agriculturists of the potentialities of the Japanese method of cultivation, notwithstanding the greater inputs of money and labour involved. The higher outlay of capital and labour is, in fact, the contribution of the people for stepping up agricultural production. The execution of schemes such as soil conservation, filter point and river pumping have enthused interest and co-operation among the people. The invisible inputs in these schemes have brought about beneficial economic results.

The importance of livestock in an agricultural country can hardly be over-emphasized. The extension services in the field of Animal Husbandry have contributed to the perceptible improvement in the existing stock of animals and birds. The extension of veterinary services has brought down the incidence of cattle diseases and mortality. The number of improved animals and pedigree birds supplied during the period is 2,615 and 36,917 respectively.

The social education programmes have proved successful in educating adults and in creating opportunity for leadership. The village leader's camps and other seminars organised at the block and the district levels have made possible mutual exchange of ideas and spread of correct information on the various facets of rural economy. So far 1·58 lakhs people have been trained in the 3,113 adults Intensive Training Centres. The change in outlook among rural folk is indicated by the 2,136 youth clubs and farmers' Unions and 661 Mahila Samitees functioning in the Community Development areas.

An outstanding feature in the development of Cottage and Small Industries in this State is the Khadi Extension Scheme. This scheme has generated over 30 per cent of rural employment under Cottage and Small Industries and accounted for an annual production of colth valued at Rs. 50 lakhs of which over 50 per cent goes directly to the workers. The impetus to be given to this scheme during the coming years is estimated to contribute over 25 per cent of individual incomes in the rural areas even when the level of individual income reaches Rs. 100 per month. Substantial part-time and full-time employment for over 4 lakhs of persons, apart from training many artisans in the use of improved tools and equipment have been the result of other schemes under Cottage and small-Scale Industries.

Employment opportunities, now in many cases and full employment in certain others, have occurred due to starting of works such as construction of roads, opening of demonstration units, starting of subsidiary industries, introduction and extension of khadi schemes. In general, building activity has absorbed a good number of landless labourers.

The progress in the field of co-operation deserves special mention. The credit societies and new agricultural banks, started recently in pursuance of the recommendations of the Rural Credit Survey of the Reserve Bank of India, have been making good progress. Apart from the normal issue of loans to ryots, co-operation has made new strides in the role of industrial co-operatives and co-operatives for marketing agricultural produce in Community Development areas.

The impact of the Community Development Programme is evident in all spheres of the social and economic life of the rural population. While releasing the fruits of technological and scientific advance to serve the needs of rural areas, the "extension services" have contributed effectively to a psychological change in the rural population, an awareness of the potentialities of improvement in their social and economic life by the application of scientific knowledge in their day-to-day life, and willingness to contribute their share in ushering in a new social order and sound economy.

APPENDIX I.

STATEMENT SHOWING AREA, VILLAGES, POPULATION COVERED BY COMMUNITY DEVELOPMENT AND NATIONAL EXTENSION SERVICE BLOCKS OF MADRAS STATE.

	Population.	Area in square miles.	Number of villages.
(1)	(2)	(3)	(4)
I. Post-intensive project blocks—			
1 Alanganallur	87,571	82·83	60
2 Vadipatti	94,145	96·45	31
3 Melur	123,015	200·50	69
4 Madurai	110,976	138·40	172
5 Erode	123,288	64·00	41
6 Gobichettipalayam	112,338	133·63	52
7 Satyamangalam	85,277	72·00	24
8 Perundurai	71,630	128·90	29
9 Kodumudi	64,463	82·62	24
10 Modakurichi	61,225	127·91	29
II. Post-intensive Community Development Blocks—			
1 Tirukalikundram..	84,558	147·07	112

APPENDIX II.

CONSOLIDATED STATEMENT SHOWING PHYSICAL ACHIEVEMENTS IN THE COMMUNITY DEVELOPMENT/NATIONAL EXTENSION SERVICE AREAS FOR THE YEARS ENDED 1956-57 AND 1957-58 WITH THE INDICES OF ACHIEVEMENTS.

Serial number and Particulars. (1)	Unit. (2)	Achievement for 1956-57. (3)	Achievement for 1957-58. (4)	Index of achievement. (5)
A. Agriculture—				
1 Improved seeds distributed.	Maunds.	107,349	416,349	388
2 Chemical fertilisers distributed.	,,	1,658,729	2,726,656	164
3 Improved implements distributed.	Number.	10,998	27,891	254
4 Compost pits dug ..	,,	54,049	64,813	120
5 Agricultural demonstrations held.	,,	17,856	128,857	722
B. Animal Husbandary—				
6 Animals castrated ..	,,	47,133	79,629	160
7 Improved animals supplied.	,,	665	1,198	180
8 Improved birds supplied	,,	7,884	20,936	216
9 Number of animals inoculated and vaccinated.	,,	748,599	1053,327	141
10 Number of animals treated.	,,	271,812	2,46,680	91
11 Number of poultry treated.	,,	52,379	1,94,097	371
C. Health and Rural Sanitation—				
12 Number of persons treated.	,,	853,605	3,562,127	417
13 Number of persons inoculated and vaccinated.	,,	130,003	1,495,459	1,150
14 Number of wells constructed.	,,	1,180	1,897	161
15 Number of wells renovated.	,,	1,265	2,574	203
16 Number of latrines constructed.	,,	3,285	6,873	209
17 Number of soakage pits constructed.	,,	14,542	17,055	117
18 Pucca and katcha drains constructed.	Yards.	118,906	208,749	176
19 Village lanes paved ..	Sq. yards.	27,445	257,793	939
D. Social Education—				
20 Youth/Farmers' Clubs/Unions started.	Number.	790	1,120	142
21 Mahila samities started.	,,	184	291	158
22 Recreation centres and others started.	,,	1,176	1,581	134
23 Libraries and reading rooms started.	,,	407	831	204
24 Community entertainments organized.	,,	5,712	8,989	157
25 Adults trained ..	,,	41,853	66,124	158
26 Camps held (Village leaders).	,,	709	257	36
27 Village leaders trained ..	,,	2,955	10,367	351
E. Communication—				
28 Katcha roads constructed,	Mile Fur.	488-4	607-5	124
29 Existing roads improved.	,,	233-6	701-3	300
30 Culverts constructed ..	Number	604	784	130
F. People's Contribution—				
31 Labour contribution ..	Rs.	23,43,604	36,35,493	155
32 Cash and other kinds of contribution.	,,	21,53,123	42,39,274	197

APPENDIX III.

STATEMENT No. 1.—SHOWING PHYSICAL ACHIEVEMENTS FOR THE YEAR 1957–58 IN CHINGLEPUT DISTRICT.

PUBLIC (RURAL DEVELOPMENT PROJECTS XIV) DEPARTMENT

G. O. No. 2408, 26th August 1959

Community Development Programme—Administration Report—Administration Report of the Rural Development Projects Department for 1957-58—Recorded with remarks.

READ—the following papers ;—

G.O. Ms. No. 1514, Public (Rural Development Projects), dated 28th April 1956.

From the Director of Statistics, letter No. 5486-N/58, dated 28th March and 23rd June 1959.

Order—No. 2408, Public (Rural Development Projects XIV), dated 26th August 1959.

The report of the Rural Development Projects Department for the year 1957-58 submitted by the Director of Statistics has been considered by the Government and it is recorded with the following remarks :—

ADMINISTRATION.

The Chief Minister continued to be in charge of the portfolio relating to the Community Development Programme in the Madras State during the year under review. He was assisted in the implementation of the programme at the Secretariat level by the Chief Secretary, Sri W. R. S. Satthianadhan, I.C.S., the Additional Development Commissioner Sri M. G. Raja Ram, I.A.S., and the Joint Development Commissioner Sri G. Venkatachalapathy. The Collectors were primarily responsible for the implementation of the programme in the various blocks in the districts and they were assisted by the usual complement of Block Development Officers and District Technical Officers and their field staff. In addition, there were one Assistant Development Commissioner (Training), two District Social Education Officers, one at Madurai and another at Coimbatore, and one District Social Education Officer (Training) in charge of the scheme for training the village school teachers.

Training Programme.

During the year under reference, a total number of 653 Gramasevaks have been trained in the existing 10 Rural Extension Training Centres in the State. A Home Economics Wing is attached to the Rural Extension Training Centres at Bhavanisagar and T. Kallupatti for training Gramasevikas in Home Science practices. In 1957 the Government sanctioned a scheme for the orientation training of village school teachers with a view to enable the teachers to learn all facets of the Rural Development Programme. A scheme for the conduct of village leader's training camp is also in operation in the State from October 1957.

Coverage.

At the beginning of the year under reference, i.e., on 1st April 1957, there were 89 Community Development and National Extension Service Blocks functioning in the State. Forty-four National Extension Service Blocks were started and seven National Extension Service Blocks converted to function as Community Development Blocks during the year. In all there were 40 Community Development, 81 National Extension Service and 14 Post-Intensive Blocks on 31st March 1958. These 135 blocks were 20,240 square miles in extent and covered 7,535 villages with a population of 118 lakhs.

Achievements under the Programme.

(a) *Agriculture.*—During the year under review distribution of improved seeds, fertilizers and improved implements continued to occupy the foremost place in the development of agriculture in the Community Development and National Extension Service areas. Cultivation and use of green manure have gained momentum, and improved methods of cultivation were widely practised in most of the blocks. Nearly 5 lakhs of acres were under the Japanese method of cultivation during the year. Vegetable cultivation was popularized to a great extent.

(b) *Animal Husbandry.*—Considerable progress was made during the year in many of the blocks in the treatment of cattle-diseases and control of epidemics. Appreciable progress was also made in the provision of veterinary facilities. Attention was also paid to the cultivation of fodder crops and establishment of grazing lands for cattle. Poultry farming continued to receive encouragement during the year.

(c) *Health and Rural Sanitation.*—Preventive measures were undertaken to check the spread of all communicable diseases. Besides lectures on rural sanitation, film shows and dramas on problems of hygiene and rural sanitation were conducted during the year.

(d) *Medical.*—During the year under review, the Medical Department has extended its facilities for the treatment of rural folk. A number of Primary Health Centres and Maternity and Child Welfare Centres were opened during the year.

(e) *Irrigation.*—Intensive measures were taken during the year under review to improve the irrigational facilities in the Community Development and National Extension Service areas. Various other items of work, including silt clearance, were also undertaken.

(f) *Buildings.*—The construction of staff quarters, office buildings Medical and Educational institutions and repairs and improvements to various other buildings were in progress. Housing schemes for providing quarters to Block Development Officers, Extension Service Officers and Police staff were also in progress.

(g) *Social education.*—During the year under review, the villagers evinced keen interest in educational programmes. A number of new elementary schools, recreation centres and adult literacy schools were started.

(h) *Co-operation.*—During the year many non-credit societies were started and dormant societies were revived and credit societies were converted into multi-purpose societies. Many of the societies undertook the distribution of improved seeds, chemical fertilizers, improved implements, etc. The co-operative societies participated in local development works also.

(i) *Harijan welfare.*—Housing schemes for Harijans, which were in operation during the year under review, were completed. An extensive housing scheme for Harijans was in operation in Peddanaickenpalayam block. In order to provide employment to Harijans, charkhas were distributed free of cost.

(j) *Women's welfare.*—During the year under reveiw, 11 Women's Welfare Organization and 22 Community Service Centres were functioning in the Community Development and National Extension Service areas. Promotion of adult literacy and cottage industries were the important activities undertaken by these centres. Practical demonstrations for cooking were also conducted in various centres.

(k) *Khadi.*—In National Extension Service Blocks during the period under review, 7,105 charkhas were introduced, 227,776 hanks purchased and about Rs. 18,981 distributed as wages to spinners. Khadi worth Rs. 50,933·07 was sold.

In the Community Development Blocks 9,860 charkhas were introduced, 1,082,011 hanks purchased and about Rs. 90,167 distributed as wages and Khadi worth Rs. 92,065·36 was sold.

In the reverted National Extension Service Blocks 2,255 charkhas were introduced 332,752 hanks were purchased and about Rs. 27,729 distributed as wages to spinners. Khadi worth Rs. 21,751·93 was sold.

There was fairly good progress in the fields of Communications, Electricity, Fisheries, Transport, etc.

General.

There had been fairly good progress in respect of the various items of development during the year under review. The Government, however, are of the view that there is scope for showing greater progress and the Government expect that, with the active co-operation of all the departments concerned, the achievements in all fields will be stepped up further.

(By order of the Governor)

W. R. S. Satthianadhan,
Chief Secretary.
